

GENERAL

Cortrols Temperature Systems believes the health and safety of its customers, employees, subcontractors, suppliers, visitors, and the community are of the highest priority and cannot be compromised. Occupational Health & Safety, Environmental Protection and ensuring a high standard of service are integrated into every aspect of our business. Our focus on training is to continuously improve our resources and work practices. Our procedures are developed to ensure client satisfaction and improve productivity within a safe working environment.

ENVIRONMENT & SUSTAINABILITY

Cortrols Temperature Systems as a leader in its industry recognises its responsibility to our environment. We have a commitment to minimise the use of precious resources and to recycle, re-use, reduce and to safely dispose of any waste that is sent to landfill. Our environment is seen as an important consideration when making decisions.

Cortrols Temperature Systems is continually looking to new ways to recycle, minimise waste and to improve our systems with the best possible practices and processes in our organisation. Staff are encouraged to reduce waste within the workplace and improve the awareness of our suppliers and customers to the importance of purchasing products and implementing control strategies to reducing the impact on the environment and the community.

Cortrols Temperature Systems will also work with customers, employees, subcontractors, suppliers, and the community to seek the progressive reduction of emissions, effluent, and discharge or waste to the environment.

OCCUPATIONAL HEALTH & SAFETY

At Cortrols Temperature Systems we place the highest value on the health, safety and welfare of our customers, employees, subcontractors, suppliers, visitors, and the community. Our commitment to providing a safe working environment for our people and members of the public makes us a leader in the building management and controls industry.

QUALITY SERVICE

Cortrols Temperature Systems' objectives include a total commitment by all employees, subcontractors and suppliers to meet the requirements and exceed expectations of our customers, in a timely manner with regard to us as competent, experienced and reliable contractors to whom they entrust work in full confidence.

We are committed to the continual improvement of the effectiveness of our management system, which encompasses all professional services undertaken for our clients. We work with our customers to identify and satisfy their needs and identify and resolve any problems which may arise.

On Time, On Budget, No Fuss.
